salon services.

When your body feels better, it shows, so we're not suggesting you need to follow spa treatments with a beautifying round in The Allison Salon. However, if you would like to polish the way you look, prefer generous use of all natural products (we grow many of our own ingredients) and you only submit to the hands of skilled, knowledgeable, in-their-field salon gurus - hair stylists and make-up artists who are on top of today's hottest looks - you've come to the right place.

Please enjoy a mimosa or tea with our compliments as we perform services designed to garner compliments of another kind.
